

Item 12 – Development Committee Meeting – 18 March 2020

Proposal from a Resident

Nikki Stocks has put forward a proposal for alleviating the flooding/Aldi problems on Halifax Road. Her proposal is for the land with the lagoons at the side of Lidl to be purchased and a landscaping company be brought in to make the area into a floodable garden. She said that it could have a skywalk pavement, planting wall and play area. It could also be a dementia/disability friendly space. She is suggesting that some of the £25m be used for this. She also mentioned that Craig Whittaker has said that Todmorden should be receiving some flood prevention money that could also be used.

Nikki also suggested that Lidl's might have a self-rising barrier to the car park triggered by flood water.
