- To use a reusable bottle for my drink
- Turn off the lights.
- Close doors immediately so heat does not escape.
- Take short showers.
- Walk or bike if you can (instead of having your parents drive you).
- Turn off your computer when not in use (don't leave it on just to keep Facebook active).
- Ask your parents not to leave the car running needlessly, for example, when waiting to pick you up at school.
- Start a conservation club at school to raise awareness. Get your fellow students and teachers on board to have the school reduce energy consumption.
- Recycle things so they can be turned into something new.
- Learn how to fix broken things instead of throwing them away.
- Find recipes to turn your family's leftovers into yummy meals and compost any food scraps.
- Swap clothes and books with your friends and donate unwanted items to charity shops.
