

Hi Colin

As per my voice-mail

Changes from 25 July. Timetables on line from next week.

589 590

A revised timetable will be introduced. All journeys to Rochdale will be numbered 590. Most journeys will run through from Halifax to Rochdale restoring a half-hourly direct service on Monday to Saturday from early morning to early evening.

The Halifax to Todmorden service frequency will remain unchanged at 15 minutes combined with services 591 and 592 (which continue to Burnley).

591 592 Halifax • Hebden Bridge • Todmorden • Burnley

New service 591 will be introduced between Halifax and Burnley, in addition to the current service 592, restoring a half-hourly service between Todmorden and Burnley on Monday to Saturday from early morning to early evening.

Service 591 will run via the lower part of Red Lees Road in Cliviger and service 592 via Mount Lane. Most journeys will run through from Halifax to Burnley. The Halifax to Todmorden service frequency will remain unchanged at 15 minutes combined with service 590 (which continues to Rochdale).

Trust this will be well received and we'd welcome publicity to raise awareness
