<p>What lasting benefit do you think the Town Council Grant has made to your organisation?</p>
<p>Todmorden in Bloom have become a product of their own success and now maintain 45 barrier baskets, 25 fixed containers and 10 pocket gardens and would normally organise the watering 130 hanging baskets and are constantly weeding the town centre. All of these the group believe give a positive appearance to the town centre, helping to promote tourism and a sense of pride for the residents.</p> <p>Without the support of the Town Council grant this would not be possible, especially the cost of the watering</p>

<p>If you have received grants from the Town Council before, please advise how you intend to be more self-sustainable and reduce your reliance on Town Council funding for the future.</p>
<p>We are very conscious that the group needs to be much more self-sustaining and therefore we have applied to the following for funding: Reaps Moss (wind farm) Via Grantscape Freemasonry and Lieutenancies Partnership Fund Town Deal Investment Plan Annually we send out Sponsorship letters to local businesses Hold Fund raising events when COVID allows</p>

--

If your project had any impact on Climate Emergency what were these and how were they minimised ?
<p>Our project are not obviously impacting on climate emergencies, however, where possible all planting is grown and bought locally all are environmentally considered, bee and butterfly friendly and many plants are recycled and propagated to keep cost and transport to a minimum.</p>
