

**Proposed new bus stop next to Vale Amenity Land - Update**

Reply from Highways about the possibility of a new bus stop in front of Vale Amenity land –  
9 June

Thank you very much for raising this issue with us .

We are sorry but we think on grounds of safety we would have to refuse this request for a bus stop at this location given a lack of hardstanding at this location , along with the nature of the road layout and the proximity of this location to adjacent stops being considered to be within a reasonable distance. There is a lack of footway on the inside of the bend with poor visibility and relatively high traffic speeds . There is a pedestrian risk therefore, with no road space to create a new footway. A bus stop at this location may also encourage cars to try to overtake blind across the solid double white line. We have also been in contact with WYCA who agree with our findings.

Regards  
Traffic Officer
