Subject: We cannot take your application for the Climate Action Fund any further

Hello Susan Miles

We cannot take your application for the Climate Action Fund any further

Thank you for the time and effort you've put into developing your application. Unfortunately, your application was unsuccessful.

We only have a certain amount of funding to give away

We always receive a high number of applications, which means we have to make some difficult decisions about which ideas we can take forward.

We reviewed your application in line with the information provided on our website, and unfortunately it did not fit with our criteria as well as other applications we've received.

If you want to talk about your application

Please contact us at climateactionfund@tnlcommunityfund.org.uk. Unfortunately, given the volume of applications we've received, it may take up to three months for us to provide feedback.

There's also helpful advice and tips about our funding on our [website](#).

Thank you for taking the time to tell us about your idea

We know it takes a lot of effort to put an application together. We appreciate you taking the time to apply.

We hope to engage with projects and communities beyond those who directly receive our funding. Through this programme, we also aim to build real momentum around the important issues related to climate change, and to connect as many people and communities together around climate action to share learning and best practice.

We have arranged sessions for applicants who were unsuccessful to better understand your experience and talk with you about other ways you can get involved. You can register for one of two online events [here](#).

We'd also encourage you to keep checking our website for programme developments and updates.

Best wishes,

The Climate Action Fund Team
