

Email to Head of Planning CMBC- 8 June 2022

Hi ,

Thank you for your previous updates.

The next meeting of the Development Committee is scheduled for 22 June and members are keen to hear the outcome of the outstanding issues at Hollins Mill.

I understand that a drainage engineer has visited Hollins Mill to look at the flooding on the car park (item 3). I was wondering whether any further action has been generated because of this?

I was wondering if there is any update on the enforcement action on the side of the weaving shed (area B).

I note your previous correspondence that the 2 storey building (item 4) will not be taken further because the building had UVPC windows at the time it was listed (grade 2).

Kind regards,
Assistant Town Clerk
