

Item 17- Town Council 14th April 2021

On 6th May, Calderdale residents will elect 17 local councillors.

Calderdale Green New Deal, is gathering a broad and diverse alliance of businesses and community groups to put the climate and ecological emergencies at the heart of the election debate.

We are encouraging those standing in the local elections to take the following Pledge (this pledge is short and direct to reflect the powers of individual councillors, whilst still requiring them to do all they can).

'If elected I pledge to ensure our council works with local communities to rapidly implement a Climate Action Plan which drastically cuts emissions over the next 10 years, and that the climate & ecological emergency is the top priority in all council actions.'

Please let us know if we can list your Town Council as a supporter of the Pledge for Calderdale Council candidates ?

Many thanks and best wishes,
Richard Dyer from Calderdale Green New Deal
