| In a 30mph speed limit | in a 40mph speed limit | ACTION |
|---|---|---|
| Where the 85th %ile is 35mph or greater | Where the 85th %ile is 46mph or greater | Possibility of referral to Community Police |
| Where the 85th %ile is 31mph to 34mph | Where the 85th %ile is 41mph to 45mph | Possibility of further SID deployment |
| Where the 85th %ile is 30mph or below | Where the 85th %ile is 40mph or below | No Further Action required |

The 85th percentile speed is the speed at or below which 85 percent of the motorists drive on a given road. For example: if the 85th percentile speed within a 30mph area is measured at 41mph, this would indicate that 85% of traffic is travelling at 41mph or less. It would also indicate that the remaining 15% of vehicles are travelling at speeds greater than 41mph.
