ITEM 9 Natural Flood Management Open Evening – for information

To receive an update for this event to held at Todmorden Town Hall on the 1st November 2021 from 6.30pm

Members received an update regarding arrangements for the event. Representatives of Tod Flood Group were also invited to address the meeting.

Focus from the group to Members centred on Natural Flood Management and the incremental nature of changes to slow the flow whether through uplands management and use of SUDS or localised actions such as water butts with a process to fill but drain out slowly.

Simple advice such as when flooding events are happening to reduce the extent of water outflow into the main drainage system – an aspect that all residents whether directly affected or not can all play their part.

Tod Flood Group agreed to provide some wording around this subject to be handed out on the 1st Nov event.

The group also raised the potential of water turbine use noting the wild water flow around Walsden, Shade Chapel and Hollins Mill.

Item 13b was also appropriate to be considered at this meeting and it was agreed that the Town Clerk and Climate Officer would liaise with Tod Flood Group to see if a joint BID could be put forward to purchase water butts for terraced property gardens in the higher risk flood areas

Action: TC and CO to liaise with Tod food Group to see if joint Bid can be made CO to contact West Yorkshire Water re future potential for water turbine use.
