Also, the site is in the conservation area and the size of the plans would seriously impact the listed building nearby and would lead to overdevelopment. The proposed development would also damage the views in the area.

2021(D)063	<p><u>Item 9. Flooding Related Issues – For Information</u> To provide verbal/written update on flooding issues in Todmorden</p> <p>a. Planning Application for Derdale St</p> <p>b. Sandholme Mill</p> <p>The Assistant Town Clerk reported that no update had been received</p>
2021(D)064	<p><u>Item 10. Update on Provision of Cycle Storage for Centre of Todmorden – For Information</u> To provide written update.</p> <p>The Assistant Town Clerk reported that there would be a further consultation with TTC about the proposed plans and that when this is to take place, she will invite members to be involved if they wish.</p> <p>The general feeling was that the plans are excellent. The issue of the provision of a map to show the location of the cycle storage sites was raised and that the Tourist Information Centre could be involved in this.</p> <p>It was also suggested that Network Rail be approached to see if the cycle storage at the railway station could be tidied up. Also, the lighting at the back of the market hall could be improved.</p> <p><i>Proposed by Cllr P Taylor and Seconded by Cllr A Hollis Unanimous</i></p> <p><i>RESOLVED:- To receive the written update and await the consultation</i></p>
2021(D)065	<p><u>Item 11. Cross Stone Rd – Dangerous to Pedestrians - For Information</u> To provide verbal update.</p> <p>The chair read out the response received that day from the Traffic Officer stating that the survey was still due to be done, that Cross Stone Rd and Hey Head roads are designated as rural roads and that early indications are that electric vehicles (particularly when moving at low speeds) are very quiet and so could possibly create the circumstances for an accident involving pedestrians.</p> <p>Ms H Parker said that the amount of and speed of traffic had increased over the last few years and that this is due to the increase in the number of businesses and houses in the area as well as the golf club. The route is also used as an access for Blackshaw Head and Burnley. This increase makes the road dangerous for pedestrians.</p> <p>Cllr P Taylor said that a similar issue had occurred on Lee Bottom Rd and the Upper Stoodley Association had consulted the police and had been advised that a mobile device called a 'SID' (a Speed Indicator Device, which gives feedback to drivers of the speed of the speed at which they are travelling) may alleviate the situation. Apparently these have been used successfully in the Lower Valley and have been provided and paid for by the relevant town councils at a cost of between £5-7,000 each. It was noted that there is another electronic device called a 'VIS'. Cllr M Carrigan reported that data is available of the impact of 'SID's' and 'VIS' on slowing traffic and that she would look into it further.</p>

	<p>There was discussion around the designation of roads as 'rural' where development had resulted in a significant increase in the amount of traffic. This was particularly relevant in small towns. It was thought that the Town Council (Climate Emergency Committee) could usefully identify which organisation could be lobbied to have the designation/definition changed to reflect the issues experienced on roads such as Cross Stone Rd.</p> <p><i>Proposed by Cllr C Potter and Seconded by Cllr the Revd G Kent Unanimous</i></p> <p><i>RESOLVED:- That the Assistant Town Clerk should make investigations about the designation of rural roads and the electronic speed indicator devices. The issue to be scheduled onto the Development Committee in June 2021.</i></p>
2021(D)066	<p><u>Item 12. Any Items for Discussion for a Future Agenda</u> To notify the Clerk of any matters for inclusion on the agenda of the next meeting</p> <p>23 June 2021</p> <ul style="list-style-type: none"> • Cross Stone Rd – Dangerous to Pedestrians
