

Susan - as mentioned in previous email

Enclosed are the additional Welcome Back Fund improvements that are being considered by Calderdale Council - these are initial parts of the public realm improvements proposed at the canalside, as will be outlined at the meeting. Please can you distribute this to committee members before the meeting.

In addition, I cannot play this during the presentation (due to copyright issues) but members may be interested to view a short clip from the BBC's Canal Boat Diaries - they featured the route into Todmorden and the site was used as the entry point into Todmorden, reflecting the experience of visitors and residents. The entry into Todmorden is from 10:40, whilst the site is featured prominently from 10:50 - also some interesting first time visitor observations about the town: <https://www.bbc.co.uk/iplayer/episode/m000bk2g/canal-boat-diaries-series-1-4-sowerby-bridge-to-manchester>

Regards
