

SUMMARY OF INFORMATION FROM PLANNING APPLICATION

Item no	Application Number	Address	Purpose	Note
7e	20/01131/LBC	Haugh House Haugh Road Todmorden Calderdale OL14 6BU	Installation of gas boiler with external flue (Listed Building Consent)	<p>This is a grade 2 listed property. It is stated that the house is extremely cold in Winter as the only source of heat is a 5kw multifuel stove in the lounge and portable electric heaters which is impractical, expensive to run and causes moisture issues and large temperature fluctuations in rooms in the house.</p> <p>The work will involve connection to mains gas(which already runs up to property as next-door) by digging up the road , the siting of a gas meter on the utility room internal wall and the siting of a boiler on the utility room internal wall. This entails the core-drilling of the posterior wall for placement of the flue.</p>
