

SUMMARY OF INFORMATION FROM PLANNING APPLICATION

Item no	Application Number	Address	Purpose	Note
7i	22/00193/LAA	Todmorden Sports Centre Ewood Lane Todmorden Calderdale OL14 7DF	Installation of air source heat pump, new substation and metal housing	<p>The application outlines the justification for the installation of heat pumps because of the climate emergency and the CMBC response to this. It is stated that sports centres are high energy users and produce large CO2 carbon emissions. A grant has been obtained for the work.</p> <p>It is stated that the power demand for the new installation will be significantly greater than the existing sub-station capacity. Therefore, a new sub-station will need to be provided along with a new service enclosure for the site connection. These two new structures will be located close to Ewood lane in accordance with Northern Power Grids requirements. The two enclosures will be light grey GRP and installed in accordance with Northern Power Grid's requirements. An analysis of expected sound levels is included.</p> <p>The installation of the new sub-station will require the removal of 2 large trees (willow) and 2 small trees. • At least 8 new trees will be planted to replace the 4 removed.</p> <p>It is stated that the proposed solar PV will be located on the upper roof and will not be visible from ground level for a large proportion of the surrounding area. Its inclusion in the scheme reduces the demand for grid fed power • The anticipated annual reduction in carbon emissions following this work will be 275 tCO2e – (tonnes of carbon dioxide equivalent).</p> <p>It is stated that Todmorden Sports Centre is located on the northern boundary of the conservation area on Ewood Lane. It is also stated that the building is not in close proximity to significant heritage assets and does not detract from the landscape. As the sports centre was built in 2000 and is of modern design the material palette for the work includes sandstone, timber, steel, glass and powder coated metal cladding panels.</p>
