We have been able to quickly respond to reports of problems from local residents.
 We have been proactive in searching out problems on the Todmorden Centenary Way.
 We have been able to be more ambitious about what we can tackle

The draw down approach to funding from the Town Council has been a brilliant asset. We now have a pretty slick system for identifying and inspecting problems and getting them resolved quickly. We also believe having the support from the Town Council has made it easier to attract other funding.

How have you promoted the assistance of the Town Council in your project literature/Web Site and or Social Media? Please provide supporting evidence and where able to analytics of visits to site, opportunities to see.

We have always credited the Town Council funding in every post on [our popular blog](#). About 9000 view per annum Blog posts have regularly featured on [our own Facebook page](#), but have also appeared in various Todmorden community pages. Total annual views are about 25,000.

What lasting benefit do you think the Town Council Grant has made to your organisation?

Residents of the Todmorden area will find footpaths easier to find and easier to use which should encourage more local people to walk.

Todmorden is a Walkers are Welcome Town and much work has been put in to promote it to visiting walkers (with some success). It is crucial that when visitors come to Todmorden they have a good experience and with this work we hope they have a good walking experience.

If you have received grants from the Town Council before, please advise how you intend to be more self-sustainable and reduce your reliance on Town Council funding for the future.

We have received funding from both Calderdale Highways and local wind farm funds. We have also contributed money from individual donations to CROWS. We have set up a crowd fund to fund work on the TCWay. These sources are not enough to cover the amount of work needed in the Todmorden area.

If your project had any impact on Climate Emergency what were these and how were they minimised ?

None that we can think of
