

Good afternoon,

The reason you may not be able to add anything to the application is it was refused on the 29.1.21

If you need to ask any thing further you need to speak with the planning officer who dealt with the application, Gillian Boulton.

Regards,

Planning Servcies.

Subject: Todmorden Town Council Consultation Feedback on Planning Application 20/00646/FUL

Hello,

I've tried to enter the consultation feedback from Todmorden Town Council on this planning application for the former garage site on Ridge Rd, Todmorden. Unfortunately, the item has been removed from the website. I had requested a slight delay in providing the feedback as the relevant committee only sat last night.

I should be grateful if you could please let me know the status of the application and that this feedback can be taken into account.

The relevant feedback is below:

Planning application not supported.

The previous TTC response that a detailed geotechnical survey be done has not taken place. There are serious concerns about land instability, surface water run off and parking

Kind regards,

Susan

Susan Miles
