

Immortal Bloom Statement of Intent

Immortal Bloom is in the process of starting up as a formal organisation through a Prince's Trust Mentorship, in which we will be setting up a CIC and writing a Business Plan. We are applying for a Startup Grant to produce a workshop which will contribute towards that mentorship process.

The organisation has previously existed as an informal art collective. Funds for previous projects have been held by other organisations. Recently, we have been working with Leeds Disabled People's Organisation CIC as fundholders, making use of their CIC status and their expertise in accessibility – latterly with the original PET Shop project funded by Leeds Inspired.

We are anticipating the foundation of the Immortal Bloom CIC at the January of 2021, and are currently searching for potential collaborators to act as an additional Director and signatory to the Guarantee. In the mean time we propose to again use LDPO as fundholders to ensure transparent oversight of project funding.
