Summary of project successes outcomes, benefits to Todmorden Community and Residents and numbers positively impacted by this Grant. If a more detailed appraisal is available for your project and its outcome, please attach to this feedback form.

We have had a busy time for the duration of the grant from Todmorden Town Council and the cost of living and the energy crisis has meant that we have significantly increased the income of the local community and other local people volunteer for us and attend the different drop-in meetings and projects that we offer in Todmorden and our projects are accessible and inclusive to the people of Todmorden. Because we have started to offer more drop-in meetings in Todmorden, the number of people we have supported has increased significantly to 702 people and the money we have recouped in payments for the local community is £780,596.15. This amount has added social value to the project and has enabled members of the local community to pay off debts and to plan for the future and to spend money in the local community. For the duration the project we met people face-to-face, online, received phone calls and also did home visits for people unable to leave home due to their health condition.

Impact – if applicable and where known have benefited from project - complete where relevant.	Numbers
Residents engaged in project/ viewed outcome.	225
Volunteers engaged in project.	12
Todmorden residents benefitting from skills development.	42
Volunteers benefitting from skills development.	14

from our resources and to reduce the amount of grant funding that we receive from various national and local funding organisations and to have a regular income stream without depending on the diminishing grant funding option.

If your project had any impact on Climate Emergency what were these and how were they minimised ?

Not applicable.
