

Item 11 – 1st April 2026 Development Committee

Hello,

I am working on a woodland creation scheme at Warland Farm, OL14 6XA.

Most of the proposed planting is in Rochdale Local Authority but the northern most compartment is in Todmorden Parish Council.

It is approximately 2 acres in size on the slope below Knoll Hill. Please see the map below.

The planting would be native species, being planted for nature recovery, increased biodiversity, and resilience.

It links with an existing area of woodland creation and helps buffer the ancient Warland Wood.

I am engaging out of courtesy to let you know about the proposed scheme.

Please let me know if you have any comments.
