

Item 18 – Full Council February 2026

Build Works Update – Todmorden Town Hall (Information only)

Todmorden Town Hall is currently undergoing build works as part of a Town Deal project. The project is being managed by Calderdale Metropolitan Borough Council (CMBC), as the building owner.

While there have been some delays to the programme, works are now progressing, and the current plan anticipates completion within the next eight weeks. CMBC are continuing to keep the Town Council updated on progress.

Members should be aware that the works continue to affect access to the Town Council offices. In particular, decoration works are taking place near the office entrance. There have been occasions where staff have been required to remain within the office while contractors complete specific areas of work.

To help ensure safety and avoid disruption, Members are kindly requested to telephone the office in advance before attending in person, so that staff can safely answer the door and confirm access arrangements at that time. The office will continue to keep Members updated on any further changes.
