Item 9 Development Committee 4th November

Road Safety and Antisocial Driving on Kebs Road – Decision Required
To discuss ongoing road safety concerns and antisocial driving on Kebs Road and consider appropriate Town Council involvement and support.

The Town Council is asked to consider:

- Contacting Calderdale Metropolitan Borough Council (CMBC) regarding the ongoing highway and road safety concerns on Kebs Road, and requesting appropriate action.
- Confirming the Town Council's support for Cllr Courtney in her efforts to address these issues.
- Writing to West Yorkshire Police to raise concerns regarding the apparent lack of road safety work, road policing and engagement in relation to antisocial behaviour, dangerous driving and associated issues in the area.
- Considering any further action or engagement that the Town Council can undertake to improve road safety and address antisocial driving.

Proposed outcome:

That the Town Council agrees to contact CMBC and West Yorkshire Police regarding the above concerns and formally confirms its support for Cllr Courtney's ongoing efforts.

Note: The Council should also be mindful that road safety issues are already included on the Ward Forum agenda and consider how the Town Council's representations can complement that work rather than duplicate it.
